Subject: VCDL Petition to repeal NPS ban

Mr. Workman,

I was wondering if you were aware of the current petition for rule making sponsored by VCDL to repeal the National Park Service ban on carrying firearms. You can get information on it at VCDL's home page at <http://www.vcdl.org> . I delivered an advanced copy to D.O.I. in DC in late January and discussed the issue(s) with them. They seemed receptive to the idea... maybe due to the fact that we've lined up some Congressional support.

We've got over 40 groups signed on to support the petition, and as mentioned above, a couple of law makers have agreed to "provide assistance", and others have been 'politically' receptive to the idea. We could use a little help...

Could Gun Week provide a little publicity to this effort? We've reached a good many "online" firearms enthusiasts, but we need to reach more to get more support.

Any assistance you can recommend would be appreciated.

Best regards,

Dave *****
